## Fully-parenthesized game 3 problems

6. (a) 
$$\forall x \in A, P(x) \to Q(x)$$

(b) 
$$\forall x \in B, (x \in A \to \sim Q(x))$$

(c) 
$$\therefore \forall x \in A, (x \in B \to \sim P(x))$$

7. (a) 
$$\forall x \in A, ((\forall y \in B, P(x,y)) \to Q(x))$$

(b) 
$$\exists x \in A \mid (\forall y \in B, P(x,y))$$

(c) 
$$\forall x \in A, (R(x) \to \sim Q(x))$$

(d) 
$$\therefore \exists x \in A \mid \sim R(x)$$

8. (a) 
$$\forall x \in A, (P(x) \vee Q(x))$$

(b) 
$$\forall x \in A, (x \in B \lor \sim P(x))$$

(c) 
$$\forall x \in B, (P(x) \to R(x))$$

(d) 
$$\forall x \in A, (Q(x) \to R(x))$$

(e) 
$$\therefore \forall x \in A, R(x)$$

9. (a) 
$$\forall x \in A, (\exists y \in B \mid (P(x) \land Q(x,y)))$$

(b) 
$$\forall x \in B, x \in C$$

(c) 
$$\forall x \in A, (\forall y \in C, (Q(x,y) \to R(y)))$$

(d) 
$$\forall x \in D, x \in A$$

(e) 
$$\exists x \in D$$

(f) 
$$\therefore \exists x \in C \mid R(x)$$
