

Semester roadmap:

Ch 1: Sets

Ch 2: Sequences

—Test 1, Feb 7—

Ch 3: Symbolic logic

Ch 4: Proofs

— Test 2, Mar 5 —

Ch 5: Relations

Ch 6: Functions

— Test 3, Apr 11 —

Ch 7: Self reference

Chapter 7 roadmap:

- ▶ Recursively-defined sets (**Today**)
- ▶ Recursive proofs I: Structural induction (Wednesday)
- ▶ Recursive proofs II: Mathematical induction (next week Monday)
- ▶ Non-recursive programs—loops (next week Wednesday)
- ▶ Recursive proofs III: Loop invariants (next week Friday)
- ▶ Recursively-defined sets application: The Huffman encoding (week-after Monday)
- ▶ Leftover topic: Arrays, vectors, and intervals (week-after Wednesday)

Axiom 7

There exists a whole number 0.

Axiom 8

Every whole number n has a successor, $\text{succ } n$.

Axiom 9

No whole number has 0 as its successor.

Axiom 10

If $a, b \in \mathbb{W}$, then $a = b$ iff $\text{succ } a = \text{succ } b$.

A whole number is either zero or one more than another whole number.

Compare to:

A pizza is either crust or a topping together with its sub-pizza.

5 is a whole number because

5 is a whole number because it is the successor of 4, which is a whole number because

5 is a whole number because it is the successor of
4, which is a whole number because it is the successor of
3, which is a whole number because

5 is a whole number because it is the successor of
4, which is a whole number because it is the successor of
3, which is a whole number because it is the successor of
2, which is a whole number because

5 is a whole number because it is the successor of
4, which is a whole number because it is the successor of
3, which is a whole number because it is the successor of
2, which is a whole number because it is the successor of
1, which is a whole number because

5 is a whole number because it is the successor of
4, which is a whole number because it is the successor of
3, which is a whole number because it is the successor of
2, which is a whole number because it is the successor of
1, which is a whole number because it is the successor of
0, which is a whole number by Axiom 7.
