

Computer memory and dynamic allocation unit:

- ▶ Computer memory and pointers (**Today**)
- ▶ Dynamically allocated memory (Monday and Wednesday after break)
- ▶ Bit operations (Friday after break)

Today:

- ▶ Bits, bytes, and primitive types
- ▶ Addresses and pointer values
- ▶ Pointer variables
- ▶ Practical use of addresses and pointers
- ▶ Pointers to arrays and structs

## Coming up:

- ▶ **Due Fri, Mar 6.** *Do Project 4, “Text-based adventure game.”*
- ▶ **Due Tues, Mar 17.** *Read McDowell, sections 2.2, 2.3, 5.3*
